VOLUME : 1 DECEMBER 2025 ISSUE : 12

Rev. Fr. Dr. J. E. Arulraj

OUR FOUNDER & CHAIRMAN – DMI Group of Institutions

Dear Members of the DMI Family,

For some time now, we have been in a phase of consolidation—almost a period of hibernation. While this has helped us stabilize and reflect, the moment has arrived for us to decisively shift gears. The future calls upon us to embark on a high-growth trajectory, marked by ambition, clarity, and collective resolve.

In this context, the Five-Year Strategic Planning Meeting of the DFT Group, held on 29th and 30th December, assumes great significance. Over these two days, we engaged in deep reflection, rigorous analysis, and forward-looking deliberations. The outcome is a bold and comprehensive roadmap that sets high targets for growth, quality, and impact across all our institutions and initiatives.

These aspirations are not meant to remain at the top alone. Every member of the DMI Group—across all levels—will be entrusted with clearly defined goals and responsibilities. Our belief is simple yet powerful: meaningful transformation happens when purpose cascades down to the last mile, and when every individual understands how their contribution shapes the larger vision.

The road ahead demands a renewed focus on productivity, performance, and passion. We must rejuvenate every cell of our organization—academic, administrative, and managerial—by embracing innovation, accountability, and a spirit of continuous improvement. When each unit thrives, the institution flourishes; when institutions flourish, the Group ascends.

I am confident that together, guided by shared values and united by a common mission, we can build a glorious and enduring future for the DMI Group—one that stands as a beacon of excellence in education and service.

As we step into the New Year, I extend my heartfelt wishes to you and your families for a happy, productive, and prosperous New Year. May it be a year of renewed energy, purposeful action, and collective achievement.

EDITORIAL

Prof. M J Xavier

CEO – DMI Foundations and Chief Editor

Dear Members of the DMI Family,

With this December issue, DMI Konnect completes one meaningful year of its journey. Over the past twelve months, this newsletter has served a vital purpose—connecting our diverse institutions across colleges and universities in Tamil Nadu, Nagaland, and Africa into a single, shared conversation.

DMI Konnect has enabled us to showcase achievements, share insights, and benchmark best practices across institutions. It has helped break silos, foster mutual learning, and reinforce the idea that while we operate across geographies and disciplines, we belong to one integrated academic and institutional ecosystem.

As we step into the New Year, our focus must shift from connection to deep collaboration. There is immense potential for:

- Resource and faculty sharing
- Joint research and publications
- Student exchange and mobility
- Collaborative academic, industry, and social impact projects

Such collaboration will not only enhance quality and efficiency but also create a distinctive DMI identity rooted in cooperation and collective excellence.

The Management has also articulated an ambitious five-year strategic plan, with a clear intent to increase the Group's turnover five-fold. This is a bold aspiration—but one that is achievable if we move forward with unity, discipline, and shared ownership. Growth at this scale will demand innovation, productivity, and commitment from every institution and every individual.

Let us therefore join hands, transcend boundaries, and work together with renewed energy to translate this vision into reality.

I extend my best wishes to all of you for a fruitful, productive, and fulfilling New Year. May it be a year of collaboration, growth, and collective success for the entire DMI Group.
